Congressional News.

WASHINGTON, Feb. 16.—The chair laid before the senate a memorial from the legislature of Arizona urging that certain coal fields in the White mountain Indian reservation be segregated from the reservation and the rights of discoverers ought to be recognized. Referred.

The postoffice appropriation bill was laid before the senate and referred.

Hill introduced a bill to relinquish to the city of Denver certain land for a public library.

Morrill reported favorably a bill authorizing the erection of a public building at Keokuk. Calendar.

A bill to quiet the titles of settlers on the Des Moines river lands, was laid before the senate as unfinished business.

HOUSE.

The house met in continuation of Friday's session and immediately went into a committee of the whole on the legislative appropriation bill. Considerable progress was made in reading the bill when the committee rose and the house adjourned and the session of Monday began.

Reagon offered a resolution requesting the secretary of the treasury to transmit information in regard to the range and ranche of cattle traffic in the western states and territories with special reference to the bearings of that traffic on the internal and foreign commerce of the United States. Referred.

The senate amendments to the army appropriation bill was nonconcurred in and a conference committee appointed.

PROGRAM FOR THE WEEK.

WASHINGTON, February 15.—Judging from the expressions of the members of congress, when speaking for themselves alone, and to some extent from the course of the events of last week, an extra session of congress is no longer probable, but may be possible; as expressions of fear or conviction are heard on all hands, that some party or fraction, not including the persons speaking, would welcome an extra session, and it is conceded everywhere that the condition of public business is of such that the purpose, if entertained, may be effected and perhaps without the disclosure of the responsibility therefore in any quarter, even if every one has been credited with a straightforward purpose in working to secure the passage of the appropriation bills before the 4th of March, the fact remains that under the long existing rules, the house roads to entanglement are many and short, while the ways to solution of possible parliamentary difficulties are few and involved. Five of the most important appropriation bills are yet to be acted upon by the house, and these, in addition to the postoffice bill, which passed the house yesterday, must yet be considered by the senate committee on appropriations.

At the close of the proceedings in the house last evening, a recess was taken until to-morrow morning, when further consideration will be given to the legislative bill. It was generally understood that a recess was taken in order to prevent the execution of the regular order for to-morrow, namely—the reception of motions from committees, to pass specified measures under the suspension of rules. An effort will probably be made, however, to adjourn the house before 12 o'clock, so this order may be observed. If the effort succeeds the committee on military affairs will first be called. General Slocum will endeavor to secure the consideration of the bill providing for the retirement of General Grant. The other committees to be called in turn, including the naval affairs, postoffices and post roads and public lands, will ask that various evenings be set apart for consideration of the business heretofore reported by them. The general impression is that the house will refuse to adjourn, and in this event the consideration of the legislative bill will be continued as unfinished. It is believed that the bill can be completed before the adjournment of the legislative day of Saturday, which may continue until the evening. The appropriation committee intends to report either the sundry civil or naval bill to-morrow, and to call up the following day the one reported. The other will be in action by the house immediately afterwards. The river and harbor committee will antagonize the appropriation bills with the river and harbor bill when an opportunity offers. It is proposed to hold a night session during the week, and if the sundry civil and naval appropriation bills are disposed of before its close, the appropriation committee expect then to bring forward the fortification bill. Saturday afternoon has been set apart for exercises in the hall of the house connected with the dedication of the Washington monument, the chief features of which will be an oration by Hon. Robert C. Whitney) to be read by Representative Long, of Massachusetts) and Hon. John W. Daniel, of Virginia.

In the senate consideration of the Indian appropriation bill will be continued, and probably concluded to-morrow. The agricultural bill will then be disposed of as unfinished business. The senate in the morning hour will consider the DesMoines river land bill, and after the morning hour the contract labor bill. The Texas Pacific forfeiture bill, the anti silver bill and a bill for the admission of Tacoma are the measures most likely to be pressed for consideration, when the labor bill is disposed of, if no appropriation bills are then ready for discussion.

The War at the Isthmus.

PANAMA, Feb. 5.—The country is in a complete uproar. Communication with the interior is entirely cut off and regarding the condition of affairs in Bagota during the past month nothing is known. No word has been received from there since January 5. Official bulletins claim the force is triumphant every where, and the popularity of Nunez continues undimished. These reports, however, are not confirmed.

One of the bulletins published most recently, read as follows. The rebels are in force at Gambitia. Our forces were to have attacked the rebels on the fifth but received orders from the government not to make the attack until they had been re-inforced by 3,000, who were on the march from Bagota. The commander-in-chief is Campo Serrano. Forty-five rebels at Velez were attacked and dispersed. Rogiero Sopez was defeated at Cuicuta with heavy loss.

In Oceana the rebels were triumphant and seized the town, but subsequently were defeated by Col. Antonio Carreno. Several skirmishes have taken place at the outposts at Gambita with General Hernandes. Later advices state that Hernandes has abandoned his camp and gone to Gargoa and 600 men are in pursuit. On the 5th the government forces attacked Cucuta and after five hours fight captured the town. Many were killed on both sides. This news is unofficial.

A Terrific Rain Storm.

NEW BRUNSWICK, N. J., Feb. 16.—A terrific rain storm has been raging this morning. The Raritan river is rapidly rising and is very probable a repetition of the great freshet of 1882. The ice in the river has not yet begun to move, but is gorged at Martin's Dock. Preparations have been made for the removal of valuables from storehouses and elsewhere.

TRENTON, Feb. 16.—There was a heavy rain here this morning which caused the river to rise and great damage to property is feared along the river front. Several mills closed owing to water in the buildings. [Reports from Lambertville, Milford, Frenchtown and other points up the Delaware state that the river is rising and a fearful freshet is apprehended.

The Strike Ended.

LOWELL, Mass., Feb. 16.—The backbone of the strike of the carpet company's operators is broken, as 240 out of 260 ingrain looms are running and a large proportion of the spoolers, winders and twisters have also gone back. The brussels weavers voted in executive session Saturday night to go back, but only nine or ten are at work this morning. The mills have started up in all the departments to give the strikers a chance to return so far many having accepted.

Mrs. Dudley's Case.

NEW YORK, Feb. 16.—Mrs. Yseult Dudley was arraigned at Yorkville police court this morning. Rossa was not in court and the prosecuting officer announced he had not called him because there was such excitement about dynamite at present, that any extraneous matter might interfere with an orderly administration. The testimony of the police who arrested Mrs. Dudley was heard.

A Prominent Banker.

BRYAN, Texas, February 15.—Major Frank Clarke, senior partner of the banking firm of Clarke, Bryan & Howell, suicided this evening at 5 o'clock by shooting himself with a revolver. The cause is unknown. It is supposed that he was laboring under a mental aberation at the time. The bank is in a prosperous condition. The suicide could not, therefore, have resulted from business troubles. Clarke left a note addressed to his partner, Guy M. Bryan, jr., requesting the latter to take charge of his estate, and see that his children are provided for.

Drowned in Sight of Land.

John and Peter Hoaver, brothers, and a son of the former, aged 12 years, were going home from work. In attempting to cross the railroad bridge, on which there is no foot path, they were overtaken by a train, and stepping to the opposite track to escape, were run down by a switch engine. Jno. Hoavers body was literally cut to pieces and fragments were scattered about the ground. Peter Hoaver's legs were both cut off and one of his arms was crushed. Jno Hoaver died at the hospital and the boys arm was amputated. Both men leave large families in destitute circumstances.

The Weather.

CHICAGO, Feb. 16.—The weather here to-day and throughout the northwest generally is again intensely cold. At 8 o'clock this morning in Chicago the mercury indicated fifteen degress below zero. The weather is clear but the air is filled with little particles of snow that are being blown around by the keen wind which prevails. Trains yesterday were somewhat delayed by the snow but the situation is not regarded as serious by railway men who have been seen today.

All east and west bound trains are starting out on time. The southeasterly lines are subject to delay. The prospect is not encouraging for warmer weather. Storm signals are flying and a further drop of several degrees is predicted. The Famous Musical Director of New York Dead.

NEW YORK, February 15.—Dr. Leopold Damrosch, the eminent musical director, died at his residence in this city this afternoon. He has been confined to the house since Tuesday night last, but was not thought seriously ill. On Monday evening he concluded the performance of "Lohengrin" at the Metropolitan opera house. He then seemed in his usual health. The next evening he undertook to direct a rehersal of oratores, but was seized with a chill and had to be taken home in a carriage. The physician decided that the patients complaint was penumonia with pleuritic complication, but did not consider his condition dangerous. At 3 o'clock this morning a sudden and material change for the worse occurred, not until then did the invalid know that he was dangerously ill. At 10 the physicians said the patient was dying. The sick man was not made aware of his true condition. About 1 he dropped off into a sleep in which he continued until 2:15 when he died.

Dr. Damrosch leaves two sons and three daughters, all, except the eldest son were present at his death. Miss Von Himberg, a sister-in-law, and other relatives were also there. Dr. Damrosch was born in Posen, Germany, October 22, 1832. He graduated as a doctor of medicine from the Berlin university with high honors. His thesis are still quoted at the institution. After graduation he devoted his whole time and energy to music. A few years after he was called to direct the Weimer musical society and afterwards he conducted a like organization of Breslau. In 1872 he was engaged to take charge of the Arion singing society of this city, and came to America for the first time. While in New York he organized oratorio and symphony societies. In 1880 the Columbia college bestowed upon him the degree of doctor of music. In August last, the directors of the Metropolitan opera house called upon Dr. Damrosch to take charge. He accepted and went to Europe the same month to engage a company. He remained abroad until the end of September. The doctor was consulted on every detail of every performance. His chief ambition was to make the German opera a success in New York, and that ambition was accomplished.

Two Freights Wrecked on the Pennsylvania Road, Killing Two Chicago Drovers.

Dynamite Thieves.

NEW YORK, Feb. 16.—Eight cases of dynamite were stolen from the magazine of the American Dynamite company and Westchester company. Every effort is being made to locate it. As dynamite is not a marketable product, the thieves are believed to be connected with the socialists or other organization of dynamiters. On the night of the robbery four men were seen rowing across the sound from the bay Chester to the Long Island shore. It is reported this morning that two English detectives are giving their attention to the case.

PITTSBURG, Feb. 16.—A collision of two stock trains near Conemaugh, on the Pennsylvania road, occurred early yesterday morning, by which two Chicago drovers were killed and a tramp stealing a ride was seriously injured. It appears that the first section of the train stopped at South Fork, on account of an obstruction on the track, and before a flagman could be sent back to notify the second section it came thundering along and crashed into the rear of the first section, completely demolishing the caboose in which Wm. Keeler and Joseph Erb, two drovers, were sleeping, killing them instantly.

Three Thousand Unemployed Workingmen Parade the Streets of London With Arms.

They Hiss Gladstone's Residence and Force a Way Into the Cabinet ---Police Routed.

Infuriated Workingmen Parading the Streets of London.

LONDON, Feb. 16.—Great excitement was occasioned to-day by the riotous conduct of a large number of unemployed workmen. Three thousand paraded the streets with banners bearing mottos proclaiming their greivances. Several bands of music accompanied the procession which marched to the building occupied by the local government board. A committee from the ranks entered the office and demanded relief for the people they represented.

They wanted immediate employment on the construction of the municipal works, which they said were needed for the public good. Officials of the board repulsed the committee and the crowd became a howling mob. The police attempted to interfere, but were soon overpowered.

The paraders then invaded Downing street and stopped in front of the official residence of Gladstone, where they howled and hissed invictives against the government, the cabinet council being held at the time, and the mob attempted to force their way into the room where the council was sitting.

The police at this point received reinforcements and ejected the intruders. The mob then attempted to storm the admiralty and home office, but were drawn off and were finally dispersed by the police.

RID OF RHEUMATISM

What a blessed thing it is to be free from pain, after protracted suffering! The first night of sleep after the pain is over is as the visit of angels. The first day of freedom from suffering sets the relieved man on foot in a new atmosphere of rejoicing.

Philosophers have said that pain is a blessing. But if so, it is one of the blessings that we are all the time wanting to be rid of. And when we are rid of it, we hardly know how to express our delight.

Some of the worst pains known to suffering humanity are those of Rheumatism and Neuralgia. You know it, if you have felt them.

Do you want to be rid of Rheumatism?

Do you want to be rid of Neuralgia?

ATHLOPHOROS

will cure you. ATHLOPHOROS is a new remedy, but it has been so well tried that there is no risk about it. It has cured old and chronic cases which the doctors had failed to relieve.

Whether your Rheumatism and Neuralgia are of recent date or of long standing, ATHLOPHOROS will cure them. You may doubt this because you have tried a great many other things that have failed, but your experiment will prove its truth.

If you cannot get ATHLOPHOROS of your druggist, we will send it express paid, on receipt of regular price—one dollar per bottle. We prefer that you buy it from your druggist, but if he hasn't it, do not be persuaded to try something else, but order at once from us as directed.

OFFICIAL PAPER COUNTY AND CITY.

THEY are now saying that Mr. Bayard is the best terrapin cook in Washington. And yet no one believes that there is going to be another "Kitchen Cabinet."

THE Pennsylvania legislature, having been in session four weeks, succeeded in passing one bill, which the governor promptly vetoed. Pennsylvania is to be heartily congratulated.

GORDON was sent to rescue the Soudan; Wolseley was sent to rescue Gordon; troops are now being sent to rescue Wolseley. The English government should take time by the forelock and begin looking around at once for somebody to rescue the rescuers.

ONLY part of Mr. O'Donovan's paper is printed in English. In the Irish part of that sterling sheet Mr. O'Donovan writes: "Tomas, agus Donacha, agus a chairde go leir.—Ni fuarsmuir son sirigiod, gur fiu coiream, air son an phadeir an seacht 'uin seo. Ni measan sibh, go caithfig an phapeir bheith marbh, fad do bheithmide breoite" We are forced to say that we don't believe this assertion.

THE Ligonier *Banner* says: "The LaGrange *Standard*, upon noticing the fact that the delinquent tax-list in the immense county of Allen, was pretty large, could not forego the opportunity to show its partisanship by yelling democratic management, etc. We would most respectfully call the attention of our esteemed neighbor to the list appearing in late issues of the Warsaw *Indianian*, and we might cite other counties just as bad. If you will take your little pencil and make a few figures you will find that the per cent. of delinquent tax in Allen county is much lower than in Kosciusko.

Teachers Institute.

The Marion township teachers institute convened at school house No. 2, Jan. 31, 1885.

J. I. Kerr was elected chairman and Miss Kate English secretary. The chairman appointed William Founer, William Essig and Clay Harrod to arrange a program for the day. After an address by the trustee the institute proceeded with the program. John Harrod presented his method of teaching fractions both common and decimal.

Miss Kate English gave her method of teaching primary geography. Mr. Founer stated the causes of the revolutionary war. William Essig explained his method of teaching the verb. Mr. Kerr explained longitude and time. Clay Harrod handled the subject of physiology in a very satisfactory manner.

Correspondence of THE SENTINEL.

ARCOLA, Feb. 16.

The spring terms of all the schools in this township are now under full headway, presided over by an able and proficient body of teachers. Thomas Hagan presides over the Arcola school. Washington Keime, of Whitley county, engages as teacher of the Aboit creek school. Miss Mollie Clark, of Fort Wayne, has just closed a very successful winter term of school here and has returned to her home.

Jacob Colter, a lumber merchant of this place leaves in a few days for the sunny south. He will visit the World's fair before returning.

Charley Vaughn on last Thursday morning left for Decatur, Ind., where he intends making his home.

E. Witham offers for sale his fine farm of forty acres of very desirable unimproved land.

William Jones has moved his family to Decatur, Ind.

Last Tuesday was the coldest day of the season here, the thermometers registering 30 degrees below zero.

Over the door of a prominent business house in Arcola hangs a good luck horse shoe which is thirty-four years old. It is a hand made shoe and made in Hancock county, Ohio.

The horse belonging to C. W. Shaff, which strayed away on the 7th day of November, and was advertised in THE SENTINEL, was claimed by the owner last Saturday at Monroeville.

The friends here of the McHenry high license bill are sorely vexed to know that the bill was killed.

THE WEEKLY SENTINEL is a welcome guest here and one which is very much appreciated, judging by the anxious crowd around the postoffice upon the day of its arrival. In looking over the long list of subscribers here, we wonder if there is any other township in the county that can surpass Lake in number of subscribers. JUSTUS.

School Report.

The following is the monthly report of the school in sub-district No. 10, Milan township: Number of pupils enrolled, 30; average daily attendance, 26. The names of those who received 100 per cent. in deportment, are Maggie Bramer, May Evard, Jennie O'Brien, Stella Porter and Charles Hazellette.

Many whose blood had become poisoned from various causes and whose ill health was indicated by pimples, sore feelings, aches, pains, urinary sediments, catarrh and inflammation of the mucous membrane, constipation, dyspepsia, bad dreams, nervousness, sleeplessness, etc., have been restored to perfect health by using Dr. Guysott's Yellow Dock and Sarsaparilla. It is the only true blood purifier and strengthener of mind and body. No other remedy equals it.

A Buddhist temple has been opened in Paris, and the officiating clergyman is a priest from Ceylon.

The pain and misery suffered by those who are afflicted with dyspepsia are indescribable. The distress of the body is equaled or surpassed by the confusion and tortures of the mind, thus making its victims suffer double affliction. The relief which is given by Hood's Sarsaparilla has caused thousands to be thankful for this great medicine. It dispels the causes of dyspepsia and tones up the digestive organs. Try Hood's Sarsaparilla.

The Fourth of July is a day of glorious memory and of patriotic sentiment. It was a sorry Fourth Mrs. Jacob King, of Springfield, Ohio, spent, however, for on the day before she was laid low by inflammatory rheumatism, which confined her to her bed and room four weeks. She could not get relief from her physician, but after using Mishler's Herb bitters two weeks she was completely cured and is now able to attend to and do her own work.

WHITE SEAL BURNING OIL

The New York board of health estimates that 30,000 lives have been destroyed by the explosive qualities of petroleum. If every household would adopt the White Seal oil for family use, none of these unfortunate accidents would occur.

WHITE SEAL BURNING OIL

has none of the defects usually found in common oils. It cannot be exploded, does not char the wick, will not smoke, emits no offensive odor, and prevents the breaking of chimneys.

WHITE SEAL BURNING OIL

is a rich oil for illuminating purposes. It is as light in color as pure water. It gives a strong steady light, and burns much longer than common oils.

If this oil is not sold in your vicinity, send your order direct to us for a barrel or a case containing two five gallon cans.

The Supreme Bench.

ATLANTA, Sept. 23, 1884.—From experience I think S. S. S. a very valuable remedy for cutaneous diseases, and at the same time an invigorating tonic.

JAMES JACKSON, Chief Justice of Ga.

AN AGED BAPTIST MINISTER.

Two More Important Cases.

Your agent being in Columbus, Ga., a few days ago, and meeting the venerable brother J. H. Campbell, we asked him for the news. His reply was, "I have two more important cures effected by Swift's Specific to report." This venerable man is known far and wide for his unremitting labors of love in the behalf of the poor of Columbus. It will be remembered that the Swift Specific Co. has donated quite an amount of their famous medicine, to be distributed by Mr. Campbell among the poor of the city; hence his remark. He said:

"I have just seen a lady who has been greatly annoyed by a Tetter in one of her hands. It had given her much trouble and pain. She said she had been treated by several physicians during the past three or four years with the old remedies, but without giving any relief. I suggested Swift's Specific, and she took four bott es and is now apparently perfectly well. Her hand is smooth and not a single sign of the disease left. It is marvelous how this medicine renovates the system."

"What about the other case?"

"Well, that was a lady also. She had been affected with the eczema for four years. Her face, hands and arms, as well as her body, was covered over with sores and scabs. It was one of the worst cases of this terrible disease that I have ever seen. The sufferings of the poor creature was beyond expression. She tried every remedy at command, including mercury and iodide of potash, but she only grew worse. She was in this condition when I first saw the case. I soon had her taking Swift's Specific, and she has now only taken two bott es, but every mark of the disease has almost entirely disappeared. Her strength and general health have greatly improved. It is one of the most remarkable cures that has come under my observation."

"Mr. Campbell, you have had a long and varied experience in mingling with men, and observing their afflictions and the remedies used—what is your opinion as to the merits of Swift's Specific?"

"In a ministry of sixty years I have mingled with every class of society, and have observed closely the variety of diseases which afflict humanity. Blood diseases are the most numerous and the most difficult to remove. It is my deliberate judgment that Swift's Specific is the grandest blood purifier ever discovered. There is nothing comparable to it. There is nothing too good to say about Swift's Specific."

Saturday THE SENTINEL noted the death of an unknown man on the Nickel Plate road. The Chicago papers now tell of pieces of his body being picked up along the line. Dr. Dinnen did not hold an inquest on the fragments of the man's body picked from the train here, but preferred to save the county that expense.

There was a meeting of the Athenian society of Wayne township Friday evening. Mr. Louis Ormiston was elected vice president and C. Methley secretary. President Gaffney filled the chair with his usual affability and the exercises were highly interesting. The question of compulsory education was debated and decided in favor of the negative. Longfellow's birthday will be celebrated at the next meeting of the society.

Rev. Henry Boeckelman yesterday preached his farewell sermon at the Cathedral. In the afternoon the popular clergyman was called before the sodalities of the church and presented with upwards of $200 by the societies he has served so acceptably as spiritual adviser. This afternoon the reverend gentleman left for Delphi, where he takes charge of St. Joseph's Catholic church in place of Rev. John Bleckman, who goes to Michigan City to succeed Rev. Julius Becks, whose health has failed.

A. Tomlinson, the popular Calhoun street photographer, sends THE SENTINEL an elegant group photograph of the Second ward democratic drum corp and a few of their friends. Herbert Tomlinson and Dan Campbell will again skate for the gold medal at the Academy Wednesday night. The young men are about a match on rollers, and although Mr. Tomlinson won the medal in the race a few evening ago Mr. Campbell is determined to compete for the honors again. The contest will attract a crowd.

The capture of Scott and Frazee, the Wabash train wreckers, cost Sheriff Nelson something over $70, and although the money come from the officer's pockets, the railroad company has not responded with the promised reward. Sheriff Nelson is not talking about the matter, but THE SENTINEL believes this little matter should not be overlooked by the railroad company, if Sheriff Nelson is manly enough to forget it.

The revival services at the Berry street M. E. church commenced Saturday evening. Rev. Sheridan Baker, who has charge of the meeting, preached yesterday morning and evening. His discourses are of a doctrinal character, and he is said to be one of the ablest exponents of the Bible in the M. E. connection. His discourses yesterday were peculiarly interesting and eloquent. Services will be held every evening for two weeks.

Wabash passenger train No. 2 was three and one-half hours late this morning, Pittsburg No. 4 was five hours late. Five freight trains of the Grand Rapids and Indiana road are frozen up at Lagrange. SPRINGTIDE ABSTINENCE.

Preparations to Emulate the Savior's Fast of Forty Days in the Wilderness—Rt. Rev. Bishop Dwenger's Promulgation.

To-morrow night at 12 o'clock begins the springtide fast, established as a preparation for the great anniversary of Christ's crucifixion and resurrection and in remembrance of his fast of forty days in the wilderness. This period of fast and prayer was first prominently introduced by the council of Laodicea in 363, and became general after the eleventh century. In nearly all the Protestant churches of continental Europe, particularly in the Catholic and Lutheran churches, lent is still a penitential season. The church of England still keeps the lenten fast on her calendar with appropriate services, as also does the Protestant Episcopal church.

In accordance with the custom in this country, Rt. Rev. Bishop Dwenger has promulgated the lenten regulations for his diocese and THE SENTINEL gives them to the public to-day as follows:

1. All the faithful who have completed their twenty-first year, are, unless legitimately dispensed, bound to observe the fast of lent.

2. They are to make only one meal a day, excepting Sunday.

3. The meal allowed on fast days is not to be taken till about noon.

4. At that meal, if on any day permission should be granted for eating flesh, both fish and flesh shall not be used at the same time.

5. A small refreshment, commonly called collation, is allowed in the evening; no general rule as to quantity of food permitted at this time is or can be made. But the practice of the most regular Christians is never to let it exceed the fourth part of an ordinary meal.

6. The quality of food allowed at a collation is, in this diocese, bread, butter, eggs, cheese, milk, all kinds of salads, vegetables, and cold fish.

7. General usage has made it lawful to take in the morning some warm liquid; as tea, or thin chocolate, and a cracker.

8. Necessity and custom have authorized the use of lard instead of butter in preparing fish, vegetables, etc.

9. The following persons are exempt from the obligation of fasting: Young persons under twenty-one years of age, the sick, nursing women, those who are obliged to do hard labor, all who, through weakness, can not fast without prejudice to their health.

10. By dispensation, the use of flesh meat will be allowed at any time on Sunday, and once a day on Mondays, Tuesdays, Thursdays and Saturdays, with the exception of the second and last Saturdays of lent.

11. Persons dispensed from the obligation of fasting on account of tender or advanced aged, sixty years, or hard labor, are not bound by the restriction of using meat only at one meal on days on which its use is granted by dispensation. Those dispensed from the fast for other causes, as well as those who are obliged to fast, are permitted to use meat only at one meal.

We recommend that, on Good Friday, the faithful abstain from the use of milk, butter and eggs.

We earnestly beg those who have made themselves the victims of intemperance, to begin with lent a sober and pious life, and to show a spirit of true repentance by a pledge of total abstinence.

AMUSEMENTS.

The Costume Concert.

The costume concert by the Page Opera company Saturday evening attracted another large audience to the Temple. Prof. Otto Schmidt was pianist, and his orchestra rendered fine selections. Selections from a number of operas were rendered, the singers being appropriately costumed according to the renditions. Miss Clara Kenower and Mr. C. L. Olds sang, "Ah, I have sighed to rest me," in grand style. Miss Falk, Mrs. Geo. J. E. Mayer, Miss Ida Kellogg, the Haydn Quartet, Mrs. Tom Creighton, Miss Churchill and Miss Page and others gave fine renditions. The next production of the "Pirates" has been indefinitely postponed.

NAT GOODWIN.

Nat C. Goodwin, under the auspices of the Anthony Wayne Post G. A. R., in the successful comedy, "Confusion," appears at the Academy to-night. The play is very amusing, in fact "very, very funny," and the advance sale of seats is unusually large.

JOE MURPHY.

The Irish comedian, Joseph Murphy, is a great local favorite, hence, when he appears at the Temple Wednesday evening, a large audience will greet him. He is the most popular Irish comedian on the boards, and his new drama, "Shaun Rhue," is the best he ever appeared in.

Department Commander, G. A. R.

The soldier friends of Nate C. Welsh, of Warsaw, intend supporting him for department commander of the state of Indiana, at the coming meeting of the Grand Army of the Republic to be held shortly. Mr. Welsh is quite well known here.—*Fort Wayne Sentinel.*

To which the Warsaw *Times* says: "The SENTINEL might also have added that besides his Warsaw friends, Mr. Welsh has a warm support in nearly every portion of Indiana, who would be greatly pleased to see him elected to the position spoken of."

The Weather.

If the weather prophets are to be depended upon this is the tail end of the blizzard. It is to be hoped that their prognostications are correct. The railroads are doing but very little freight business and passenger traffic is very light. Drifted snows cover the country roads and people in the city go about with their hands over their ears. It is safe to predict warmer weather by Friday or even sooner, and the merchants may then reasonably expect a good trade.

The Huntington *News* says: "Miss Liddie Tons, of Fort Wayne, who attended the skating rink last evening, left for her home this noon accompanied by Miss Lizzie Drover.

Mrs. Charles H. Nix and sister-in-law, Mrs. Joan Kintz, returned home last evening after a week's visit here with Mrs. George J. E. Mayer. Before leaving they agreed to be back at the next performance of the "Pirates," having been delighted with its presentation.

THE MURDER CASE.

Mrs. Fred Richards Testifies for Her Husband—Worst and His Wife in Court.

After 10 o'clock the Richards murder trial was resumed. Mrs. Richards took the stand and said her husband, the defendant, was at home the night of the murder, April 24. She said she heard Davis Smith say he would get revenge on her husband if it took forty years. Davis Smith wanted to run off with a girl, and said he would kill Fred Richards if he followed him. She heard Wm. Buff say he did not like Richards and would get him hung if he had to swear to a lie to do so. She said two strangers came to her house the night before the murder, and that Davis Smith went away with them.

Charley Werst, the life prisoner, was in court as was also his young wife, who continuously weeps when her husband is hand-cuffed. Richards is happy and chats pleasantly with his wife.

Dan Campbell started another fire in the Wabash blacksmith shop this morning. Col. Phil Grund and Ed Deegan operate it.

PORTRAITS OF PROMINENT ONES.

Brief Biographical Sketches of Those Who Figure in Current History.

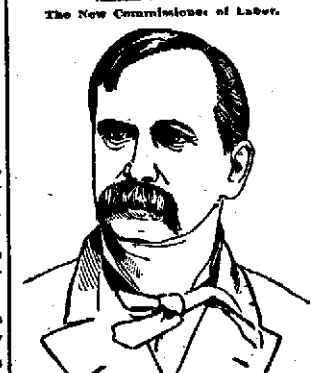

ALBERT FINK.

Mr. Fink, who has since June, 1877, occupied the arduous position of "commissioner of the trunk lines and chairman of the joint executive committee," sent in his resignation about six months since, the acceptance of which will probably result in a complete disruption of the pooling arrangement between the trunk lines and a return to the competition which existed before that arrangement. Mr. Fink was born in Germany in 1827, entered railway service in 1849, and has since accumulated a knowledge of railroad construction and management which is equaled by but few, having filled every position on a railroad from brakesman to president. His genial manner and acquaintance among railroad men, taken with his varied experience and desire to make "pooling," which had long been a favorite scheme of his, a success, renders it unlikely that his position will be ever successfully filled.

At the meeting of trunk line presidents on Feb. 6 the resignation of Mr. Fink was taken up, and though he insisted upon its acceptance, the meeting refused to accept it. It was, however, decided that Mr. Fink could go on a vacation and remain as long as he pleased.

The New Commissioner of Labor.

COL. CARROLL D. WRIGHT.

The recently appointed head of the new national bureau of labor statistics, Col. Wright, is undoubtedly the right man in the right place. As commissioner of the bureau of labor and industry of Massachusetts he has displayed the highest capacity, and his annual reports are models in their way of patient investigation and impartial performance. The data in regard to wages and profits of production which he has so carefully collected and arranged are accepted as authority everywhere. He has worked throughout for the mutual advantage of capital and labor, his operations throwing a light upon the problems involved in their relations, by which each gains a clearer understanding of its obligations to the other. According to The Boston Transcript, Col. Wright, in accepting the position of United States labor commissioner, does not necessarily vacate the important office he now holds. His understanding with the president is that he shall accept the office only for the purpose of organizing the national bureau of labor on the same basis as that of Massachusetts.

Sugar King of the Sandwich Islands.

CLAUS SPRECKELS.

The shooting of De Young by Adolph Spreckels, in San Francisco, brought into prominence the father of the latter, Claus Spreckels, commonly known as the "Sugar King of the Sandwich Islands," who wields a power more autocratic, if not greater, than that of any other monopolist in the world. Spreckels is a South German, born in Hanover, a man of small education, who came to this country about 1830, and started in the retail grocery business in Church street, New York. He went to California soon after the gold fever broke out, and at once engaged in the grocery business, preferring it to the hazards and hardships of mining. Everything which he touched seemed to turn to gold. Combining with several of his brothers who had come out to the coast, he bought a quarter interest in the Albany brewery in San Francisco for $40,000. This was the foundation of his present large fortune and commercial importance. After running the brewery a few years his keen business instincts saw in sugar-refining a far more profitable field of enterprise. The story of his conquest of the Sandwich Islands in a nutshell is, that he took advantage of the ignorance of a king who wanted money and that he works his coolies to death.

Of Spreckels' wealth it is impossible to form any accurate estimate, because much of his property is mortgaged, and it is understood the greater part of his fortune is embarked in the sugar business, which is apt to depreciate. He makes daily, the year round, however, 600 barrels of sugar. He makes a clear profit of $10 on each barrel, or $6,000 a day, which amounts to $2,190,000 a year. He controls the entire sugar trade of the coast, which represents $10,000,000 a year. Down at Honolulu he puts on more the airs of an autocrat, and his course there lately has put him into disfavor with both the native and foreign population. Last January he loaned the king $1,000,000.

LATE LOCAL NEWS.

The freight trains on the Wabash road have not stopped a single day this year on account of the cold weather.

There were three wrecks on the Pittsburg road yesterday. In one of them, east of here, 100 sheep perished.

The poultry show opens to-morrow in the Certia building. Coops are all in place and the entries are large. This will be a great exhibition.

Salinger Bros. have moved from 15 and 17 East Main street to 36 Calhoun street, where, having more room, they have a much better chance to display their immense stock of clothing. New spring goods are now being received. Winter goods are being slaughtered.

The supreme court on Thursday rendered an opinion that will be of great importance to the Godfreys in the Aldrich case. Judge Becknell for the court says: "It may be observed here that the proper construction of Sec. 2-3, of the act of 1883 is unquestionably that the state's lien for taxes is transferred only to the amount of the money paid at their sale and taxes paid, interest, etc. Statutes must have a reasonable construction."

The Late Lillian C. Nill.

Last Saturday occurred the funeral of Miss Lillian C. Nill. To chronicle, says a correspondent, the death of one so universally beloved is a task of lasting sorrow. A lovable and efficient teacher, a kind, indulgent daughter, an amiable and unselfish friend, derelicit in no duty becoming one whose life left an example to be emulated by all.

The floral testimonials, emblematic of a pure, unspotted life, were a beautiful estimate of the large circle of friends that mourn her departure. The pall bearers were Henry Freeman, T. J. Nolton, Alto Klingenberg, Sam Nickel and Will Bohn.

A Household Treasure.

Says a shrewd writer, "only let a wife know she is precious to her husband and she will be to him and to her children a well-spring of happiness." There is good sense in this. And there is good sense in preserving your wife's health so that she may be happy. Many women are cruelly run down by work and worry; but hardly any are beyond the power of Brown's Iron Bitters to restore. Mrs. L. D. Hamilton, Bedford, Ohio, says, "I derived permanent good from using Brown's Iron Bitters as a tonic for general debility."

For New Orleans.

The popular Muncie route is running through fast trains to Cincinnati, making close connections in the new and magnificent Grand Central passenger station with the Cincinnati, New Orleans and Texas Pacific railway, "Queen and Crescent route" for New Orleans. By taking the "Queen and Crescent route" from Cincinnati passengers are afforded an opportunity of viewing the scenery which has made the route unique among American railroads, the beautiful farms of the Blue Grass regions, the wonderful high bridge, the picturesque views of mountains and valleys, passing along, as it were, a panorama amongst the Cumberland mountains and the charming Emory river. Stop-over privileges are granted at any point along the line. No other line diverging from Fort Wayne can take passengers through without transfers, which are always tedious. Tickets are now on sale at the north depot at $21.95 for round trip, good for forty days. Apply to ticket agent, who will cheerfully furnish maps, time tables, and such other information as might be desired.

Coffees, Teas and Sugars.

Our Tea Trade is continually growing. We now sell as much Tea in a month as we formerly did in a year, and there is no secret about it. It is simply giving our customers the most we can for their money and the best Teas at low prices. The reason we can do this is we purchase in large lines direct of the Importers and then sell direct to our customers, thereby saving them the intermediate profits of the speculator jobber and the wholesale merchants, which is 20 to 25 per cent. on the dollar.
